

## DEAD BATTALION CHIEF HONORED BY FIREMEN AT FUNERAL SERVICES

His Company Stands Tearfully  
at Attention as Duffy's  
Body Passes.

The big truck of Hook and Ladder No. 8 was drawn part way out of the doors of the firehouse at Fifth street and Lexington avenue to-day and Fireman Charles L. Klausman, the wheelman of the truck, sat in his seat and slowly tolled the bell of the truck. Tears coursed frankly down the fireman's cheeks; the other men of the company, drawn up at attention before the door of the firehouse, dared not move a hand to brush the moisture from their eyes.

For the body of Battalion Chief William J. Duffy, who died Monday, after twenty-nine years' service in the Fire Department, was passing the Headquarters, which, in life, had been the scene of the Battalion Chief's labors. Behind the hearse walked all of the high chiefs in the Department and 300 uniformed men. Not in years had a man of the Department been honored in death as was Chief Duffy to-day.

The funeral cortege started from the home of the dead chief, No. 220 East Forty-ninth street, where for blocks on either side the hosts of mourners had been gathered. The pallbearers, all battalion chiefs of rank equal to that of the man to whom they paid last honors, were Thomas F. Skelly, Thomas P. Dougherty, Peter Sloan, William

Clark, George L. Ross and James C. Brogan. The pallbearers, with Fire Chief John Kenyon and Deputy Chiefs Martin and Haven, walked beside the hearse, as the cortege moved down to St. Patrick's Cathedral. At the church Father McGeehan, assisted by Fathers McGuire and Honeyman, conducted a solemn high requiem mass. Interment in Cavalry Cemetery followed.

## WHEN CONSUMPTION IS CURABLE

Remember that every case of tuberculosis passes through its curable stage, which is often of a year's duration—plenty of time to be cured. If the disease is only recognized and properly treated before the incurable stage overtakes the patient.

If you fear that there has been failure to correctly diagnose or understand your case, call on Dr. Anderson, one of New York's leading specialists in Throat and Lung Diseases, and the inventor of the Anderson X-Ray, which has revolutionized the former methods of diagnosing internal diseases.

He discovers the very earliest signs of lung trouble while the disease is yet in its curable stage. Investigate his treatment and the records of his permanently cured patients.

Do not wait until a Spring break-down overtakes you, and do not delay or wait for experiments to be tried out. Anything that is proven to be reliable and able to do all that is claimed for it, will be gladly and promptly used by all specialists. Consult Dr. Anderson. It costs you nothing to find out for yourself, because office consultation and examination are given without charge. Dr. Anderson, Specialist, 80 West 23d st. (between 8th and 9th avenues), New York.

Hours—Daily, 10 to 6; Monday, Wednesday, Friday evenings till 8 o'clock; Sundays, 11 to 3. Valuable book on Tuberculosis sent to any address.
